Re: Docket Numbers: E-01345A-16-0036 + E-01345A-16-0123

Dear Commissioners,

As a small business owner reducing overhead is how I keep my company in the black. If utilities, facility, or supply costs go up it may hinder my ability to grow and succeed. As we run into the summer months my electric bill becomes a large expense. Anything that would unjustly increase my costs could be a detriment to my company.

Currently APS is working to raise my rates AND increase the monthly fixed rate while also negatively impacting my ability to reduce my own power bill by having more income to spend for energy efficiency and other cost saving features. This will make it very hard for me to reduce overhead.

Please vote no to the increases that APS is proposing to the bills of ratepayers.

Sincerely,

Arizona Corporation Commission
